

I am a private citizen of the State of Indiana and have recently heard that you are considering national standards for telephone privacy protection laws. As you are probably aware, we have recently passed and implemented such a law that is popular and successful with the people of Indiana, with 98% of those surveyed on the no-call list being satisfied or very satisfied. Personally, I am extremely satisfied with our current situation, and thus was very upset to read that you are considering legislation that would weaken our no-call law. I strongly urge you to NOT implement any proposal that would lessen the State of Indiana's telephone privacy protection. Thank you.
